

# Remanufactured Tablet Presses

## Manesty Unipress

The Manesty UNIPRESS –  
For quick setup and flexible production

The Manesty Unipress is a single-sided rotary tablet press with pre-compression capability. It is designed for small batch manufacturing of a wide variety of products and therefore ideally suited for tablet development. The small footprint and compact design of the Unipress allows for installation in all production areas.

The machine can be equipped with either a standard feeder assembly in a 2 paddle design or an elite feeder assembly with 3 paddles. Its compact design is backed by on-machine controls to eliminate a standalone cabinet with connecting cables.

### Your Benefits

- ▶ High versatility
- ▶ Compact Design and Small Footprint
- ▶ Ideal for Tablet Development and Small Batch Production
- ▶ Easy cleaning due to access on all four sides
- ▶ Pre Compression for added flexibility

Tooling Type	D Size	B Size	BB Size
Number of stations	20 or 22	27	34
Max press output per hour (TPH)	158,400	194,400	244,800
Max depth of fill	20.63 mm	17.46 mm	17.46 mm
Max tablet diameter	25.4 mm	16 mm	11 mm
Pre Compression	9.81 kN	9.81 kN	9.81 kN
Main Compression	98.07 kN	63.74 kN	63.74 kN
Dimensions	0.97 m x 1.0 m x 1.87 m		
Net Weight	1850 kg
